# EUROPEAN TICKETING ROADMAP ACTION #5

-

## Harmonisation of tariff conditions

**Christiane Kraus**

UIC coordinator of SCIC-NRT

## CER Ticketing Roadmap Action #5 – children

Age clarity - Transparent and accurate information for passengers who profit of reduced offers.

We are committed to providing **transparent and accurate information** for every travel and every passenger. This will facilitate comprehension of ticket information for passengers.

Recognizing that passenger classifications differ across carriers and countries, we will no longer use terms such as “adult,” “child,” “youth,” or “senior” as passenger-type.

Instead, we will display the passengers’ age, as provided by the customer, in case of discounts based on age, compliant with GDPR.

This **unified rule applies across all European carriers that are members of UIC and CER**, ensuring one consistent policy for international journeys.

# CER Ticketing Roadmap Action #5 – dogs/small pets

Harmonized solution for travelling with dogs and small pets on international trains.

We have established a **harmonized solution** for travelling with dogs and small pets, covering ticket requirements as well as additional regulations such as leashes and muzzles without sizes and weights.

This **single rule applies to all European carriers that are members of UIC and CER**, ensuring one consistent policy for international journeys.

## CER Ticketing Roadmap Action #5 – hand luggage

Unified policy for traveling with luggage: there are no restrictions based on size or weight.

We have established a **unified policy** for traveling with luggage: there are **no restrictions based on size or weight**.

Passengers may bring as many items as they can carry onto the train in a single movement.

This common rule **applies to all European carriers that are members of UIC and CER**, ensuring one consistent policy for all international journeys.

## CER Ticketing Roadmap Action #5 - bicycles

Effortless bicycle travel on international trains with no restrictions regarding size or weight.

We enable **effortless bicycle travel** on international trains, with no restrictions regarding size or weight. The only limitation is the standard definition of a normal bicycle. This **unified rule applies across all European carriers that are members of UIC and CER**, ensuring one consistent policy for international journeys.

*“A regular, assembled bicycle is a two-wheeled vehicle, consisting of a frame, a pair of pedals and a saddle, can also be an electric bicycle (up to 25km/h)”*

Note:

- S-pedelecs with electric motor support > 25 km/h cannot be transported.
- Charging batteries is not permitted unless pictograms on the sockets clearly indicate that bicycles may be charged.

# CER Ticketing Roadmap Action #5 - PRM

Enhanced flexibility for PRM when travelling internationally, as they are able to book free tickets for accompanying persons even outside their home country.

Through the introduction of the standardized **EU Disability Card** we offer **significant benefits for PRM**. PRM can enjoy **enhanced flexibility** when travelling internationally, as they are able to book free tickets for accompanying persons even **outside their home country**.

This is already in force since December 2024.
